# WINTER 2025

Welcome to the NEW 2025 Pro-Tec Snow lineup, where timeless style meets unrivaled innovation.

In addition to our classics - we have four amazing new products to keep you protected on the hill so you can push your progression to the next level.

Rest assured that each item featured in these pages embodies the pinnacle of durability and performance.

Our commitment to crafting top-tier protection continues to stand the test of time, enduring that every ride, every adventure and every moment on the hill is nothing short of extraordinary.

# LOW PRO

S N O W

Breakthrough technology that delivers the deepest fit with unlimited customization for supreme comfort and security. It starts with our most advanced slimmest-profile shell design, wrapped with newly designed luxurious liners to hug your head like you've never experienced before.

## UNIQUE LINER

Lock-in liner shape keeps helmet securely in place.

## LOWERED GOGGLE CLIP

For optimal goggle strap alignment.

## ULTIMATE CUSTOMIZATION

17-Piece fit kit plus removeable ear flaps.

with Plush Faux Fur Ear Pads  
for Comfort and Warmth

**FIT** - 5 sizes - XS, S, M, L, XL

**CERTIFICATIONS** - EN 1077B, ASTM 2040

# OLD SCHOOL SNOW

The Old School Cert was modified from the original 1973 Full-Tec and features a retro shape that sits low on your head, offering great impact protection. This season we added Mips or Multi-directional Impact Protection System for added protection against rotational impact. The full coverage terry and mesh liner along with the padded audio capable ear pads keeps you comfortable and warm on the hill. The 11 mesh covered vents add ventilation while keeping you safe from branches and debris.
